

Report on Supporting Land Ecosystems through Education

University as a body offer educational programme/outreach for local or national communities on sustainable management of land for tourism

Year 2024-25

SDG-15	LIFE ON LAND
University as a body offer educational programme/outreach for local or national communities on sustainable management of land for tourism	

Tourism is not one of the University's academic programmes, so its community work on the sustainable use of land for tourism is smaller than its agriculture outreach and takes the form of short training and awareness activities.

The list of activities for 2024-25 includes community-based eco-tourism training and awareness programmes, nature trails and biodiversity walks, responsible and plastic-free tourism campaigns, a clean eco-tourism drive, wildlife-friendly tourism awareness, forest conservation and eco-tourism programmes, wetland and coastal eco-tourism conservation, eco-guide training for local people, sustainable tourism entrepreneurship training and an eco-tourism village development programme.

Each activity in the list has a report and photographs showing the place, the participants and the subjects covered.

The list of activities is attached.

DOCUMENTS REQUIRED

- ✓ List of activities for local or national communities on sustainable management of land for tourism
- ✓ Community-Based Eco-Tourism Training
- ✓ Sustainable Eco-Tourism Awareness Programme
- ✓ Nature Trail and Biodiversity Walk
- ✓ Responsible Tourism Awareness Campaign
