Year 2024-25

SDG-17

PARTNERSHIPS FOR THE GOALS

University's progress against SDG15: Life on Land

The University's progress on life on land is reported metric by metric in the SDG 15 section of this submission. It covers conservation events and plantation, sustainable food sourcing, biodiversity, education and outreach on ecosystems and land management, water quality, plastic reduction and waste disposal.

The best-evidenced areas are the Green Campus Initiative, the water conservation facilities, the Waste Management System and the School of Agriculture's extension work on sustainable land management.

This summary is supported by the documents listed against each SDG 15 metric.

DOCUMENTS REQUIRED

- ✓ Documents listed against each SDG 15 metric in this submission (15.2.1 to 15.4.3)
