

Report on Student Hunger

University as a body provide healthy and affordable food choices for all on campus

Year 2024-25

SDG-2	ZERO HUNGER
University as a body provide healthy and affordable food choices for all on campus	

Food on the campus is meant to be nutritious and within reach of everyone who studies or works here. The canteen, hostel mess and food court menus are vegetarian and give the calorie value of each dish, so a student or staff member choosing a meal can see what it contains. Prices are kept low through the store, the food court and the eatable vending machines, where selected items are served at reduced cost, and these items appear with their prices in the approved menu card.

The kitchen and dining areas are kept hygienic, and the University's website describes the canteen food as wholesome, appetizing and hygienic. The canteen and dining facilities are open to students, faculty and staff alike during the published timings.

The vegetarian/vegan menu with calories and the approved menu card showing the reduced-cost items are attached.

DOCUMENTS REQUIRED

- ✓ Food menu, vegetarian/vegan, with calories
- ✓ Approved menu card showing items served at reduced cost at the store, food court and eatable vending machines
