

Report on Collaborations and Health Services

University as a body have a "Smoke-Free" Policy

Year 2024-25

SDG-3

GOOD HEALTH AND WELL-BEING

University as a body have a "Smoke-Free" Policy

The University is smoke-free. Smoking is not allowed anywhere on the campus, and the rule applies to students, faculty, staff and visitors alike. It protects everyone on the premises from tobacco smoke and goes with awareness of the health risks of smoking and tobacco use.

Smoke-free signboards and notices are displayed at prominent places on the campus so that the rule is visible to anyone who enters or uses it, and the rule is enforced on the campus.

The photographs of the signage and of the enforcement of the policy are attached.

DOCUMENTS REQUIRED

- ✓ Photographic evidence of smoke-free signage and enforcement on campus
