

Report on Women's Progress Measures

University as a body have measurement/tracking of women's likelihood of graduating compared to men's, and schemes in place to close any gap

Year 2024-25

SDG-5

GENDER EQUALITY

University as a body systematically measure/track women's application rate and acceptance or entry rate

The Controller of Examinations' office keeps progression and completion records for every enrolled cohort, and these are compiled by programme and gender at the end of each academic year.

The IQAC and the Dean of Student Affairs review the figures, and where women's likelihood of graduating falls behind that of men in a programme or cohort, the School concerned is asked to bring in or step up academic support the next year, such as remedial classes, additional faculty consultation hours, mentoring and academic counselling. The Women's Development Cell (WDC) carried out a gender audit for 2024-25.

An extract from the ERP graduate data system showing gender-wise results and the gender audit report are attached.

DOCUMENTS REQUIRED

- ✓ ERP report of graduate data system extract showing gender-wise graduation
- ✓ Gender audit report 2024-25 by the Women's Development Cell (WDC)
