

## School of Architecture

School of Architecture (SoA) offers a graduate programme which is a blend of art, science and technology that provides overall development through an interdisciplinary skill set where students identify, analyze, create and explore Architectural concepts. The course aims to provide “hands on learning” that extends towards unleashing the creativity within and also training students to excel in the professional world as competent Architects.

### Course offered:

- **B.Arch**

**Duration:** 5 years

**Intake:** 40

## ELIGIBILITY

Candidates who have qualified an aptitude test in Architecture and have secured 50% marks in 10+2 or equivalent examination with Mathematics as one of the subjects. NATA score shall be valid for a period of two years from the year in which one appeared.

## PPSU - OUR ACADEMIC EDGE

- Architecture is renowned for its innovative and experimental research in the discipline, including design, history and theory, professional practice and innovative technology.
- Excellent resources, including an extensive workshop and studio (known as Concept to Reality, or C2R) that is widely regarded as the best of its kind in architectural education.
- C2R offers access to traditional woodwork and metalwork resources CNC machining, advanced computing and materials testing.
- All students participate in the annual C2R Summer Show, a major exhibition at the end of the academic year which attracts visitors.

## PROFESSIONAL GATEWAYS

- Career - Architectural firm, Green Infrastructure companies, Infrastructure companies, Teaching.
- Higher Learning - Master of Architecture and Master of Urban Design.
